Career Objective

I am currently seeking a role as a bartender/Barback.

I stopped working as bartender roughly one year ago due to me changing roles to a warehouse forklift position. due to COVID-19 I was placed on jobkeeper payment and while staying at home for more then a year I have decided to go back to studying which is the reason for me wanting to come back to work as a bartender due to the flexibility of the role. I have experience being a beginner/intermediate cocktail/pouring bartender. I am able to work independently and with a team. I have strong communication skills and able to adapt to fast pace environment. My study will start on 22/02/2021 and so I am able to work anytime right now till I get my time sheet.

Availabilities

Australian Citizen – No Visa Restriction

Mon Open – Close
